July 13, 1984

Mr. Delbert D. Thomas, President
Shale Development Corporation
313 High Street
Redlands, CA 92373

Dear Mr. Thomas:

RE: Sand Wash Project, ACT/047/005, Uintah County, Utah

The Division is in receipt of your recent submittal regarding the permitting of the Sand Wash Project. As you will recall the Division revoked the tentative approval for the Sand Wash Project on November 23, 1983 (copy enclosed). The provision of that letter required Shale Development to resubmit a complete Mining and Reclamation Plan, should they wish to pursue permitting of the project. Therefore, the Division will withhold review of your latest submittal until all previously submitted and approved information is combined into an updated MR Form 1. A blank form is enclosed for your convenience. The bond must also be finalized. A newly revised MR Form 5 is enclosed for that purpose.

Upon receipt of all necessary forms and required information the application will undergo a 30-day public notice period prior to going before the Board of Oil, Gas and Mining for approval of the reclamation surety. Upon receipt of the surety, the Division can issue final approval. Please contact myself or Susan Linner, Permit Supervisor, if you have any questions or if we can provide further assistance.

Sincerely,

James W. Smith, Jr.
Administrator
Mineral Resource Development
and Reclamation Program
